Subject: Docket No. 2010-365-E-SCE&G

Jeff:

Concerning the above referenced docket, we received ORS' correspondence dated November 5, 2010. Since that date, there have been several e-mail communications between the parties. Based on the information contained in these e-mails, please advise as to whether ORS has any updates since its initial correspondence to provide concerning the Company's request.

The Company's e-mail of November 18, 2010, acknowledges that a portion of the Scrubber is currently in the Construction Work in Progress (CWIP) portion of the Company's rate base on which it is allowed an opportunity to earn a return on investment. Does this fact change the ORS's position on carrying costs given that the ORS letter of November 5, 2010 states that the Scrubber was not in rate base under Docket No. 2009-489-E?

Jeff, please let us know ORS's position in this matter.

Thanks and regards,

David Butler
Senior Counsel
Public Service Commission of South Carolina
